## ABOUT OUR COMPANY

Founded in 2011, A B Process Technologies delivers future-ready solutions in fluid handling, automation, and turnkey system integration, unifying EPC design, execution, and delivery under one roof. From engineering to commissioning, we meet technical, operational, and maintenance needs. With a decade of experience, we ensure scalable, compliant systems and build lasting partnerships through expert consulting and agile execution.

### VISION

To be a solution provider to customers through 'Nextgen offerings' which resolve critical problems by all means and elevate support to our business sustainability and scale with a rapid pace towards 10X growth.

### MISSION

Inculcate structured and organised work methods thru responsible, accountable & strongly decisive leadership. Be persistent in focus, innovation & adapting new edge technology for coherent business process and solution to customers. To strengthen as sales organisation with equally strategically chosen product offerings changing business profile to next level in our ecosystem.

### VALUES

- Innovation
- Commitment
- Focus
- Ethical
- Research and learn
- Collaboration

### OUR PROMISE

We are driven by a steadfast commitment to:

- **Unmatched Technical Expertise**
- **Specialists in Critical Gas Handling**
- **Diverse and Comprehensive Solutions**
- **Commitment to Excellence and Safety**
- **Customer-Centric Approach**

This philosophy has enabled us to become a trusted partner for organizations seeking reliable, future-ready process solutions.

### WHAT WE DO

We provide turnkey solutions:

- **Consulting:** Solution Framework
- **Engineering:** Technology Enforcement
- **Manufacturing:** Process Equipment
- **Commissioning & Training**
- **Integration Partners**

Our end-to-end expertise ensures smooth execution and seamless integration at every project stage.

## INDUSTRIES SERVED

Oil & Gas

Aerospace

OEMs

Marine

Defence

R&D

## SMART INFRASTRUCTURE

IoT-ready

WebApp

Remote Ops

Auto Reports

## TEST & CALIBRATION SYSTEMS

At A B Process Technologies, we engineer automated, modular, and scalable test & calibration systems—designed to validate pressure, flow, temperature, gas composition, and protocols across complex industrial applications. Engineered for precision, our intelligent end-to-end calibration systems are fully industry-ready.

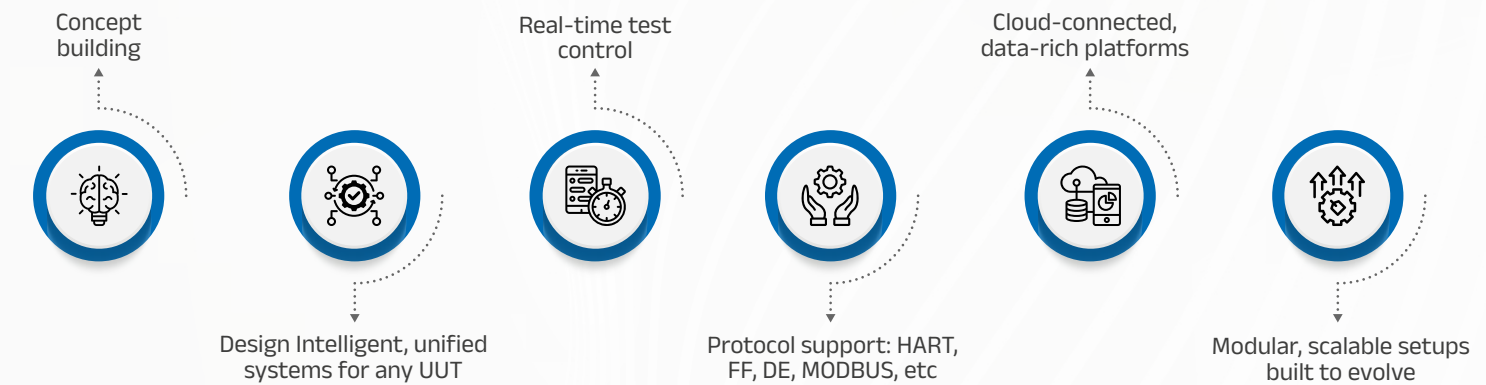

## CHALLENGES WE SOLVE

- Manual, fragmented test processes
- Poor scalability across product variants
- Inconsistent analog/digital/protocol calibration
- Lack of traceable, auditable test data
- Non-compliance with safety & regulatory standards

## WHAT WE DELIVER

## CAPABILITIES

## TEST & CALIBRATION SYSTEMS

Gas & Liquid  
Sampling Systems

Fuel Delivery &  
Management Systems

Hydrogen  
Solutions

Modular Process  
Setups

Integration  
Partner

Gas Distribution  
Systems

Customized  
Panels & Skid.

FITOK GmbH - Instrumentation  
Fittings, Valves & Tubes
